AVinDH workshop (SIG)

Oiva, Mila

Arnold, Taylor

Wigard, Justin

Workshop at ADHO 2025 in Lisbon, Portugal

The theme of the DH2025 emphasizes openness and accessibility of scholarly knowledge. Following this idea, the AVinDH SIG invites all the interested parties – from complete novices to hard core wizards – to join our workshop to discuss the present status and future avenues of research on AV materials within the DH.

All DH2025 attendees are welcome to join! One does not have to be a member of the AVinDH SIG, although we would be delighted to have you join our mailing list here !

Schedule

Time: Monday July 14th at 1:30 PM - 7:00 PM (appears in the conference program as only until 5 PM, but we have reserved the room until 8:00 PM)

Location: tbc

1:30 PM – 1:45 PM Opening Remarks

Opening remarks

1:45 PM – 3:00 PM Unconference

Joint mapping of the existing status of AVinDH and discussion of the future potentials of the field.

3:00 PM- 3:30 PM Lightning talks

The Lightning Shorts session will focus on current research in AV DH. Each participant will have five-minutes to introduce their work. Participants in the lightning shorts must also sign-up for the day-long AVinDH workshop.

3:30 PM - 4:00 PM coffee break

4:00 PM – 4:30 PM Lightning talks

The Lightning Shorts session will focus on current research in AV DH. Each participant will have five-minutes to introduce their work. Participants in the lightning shorts must also sign-up for the day-long AVinDH workshop.

4:30 PM – 6:30 PM Arvest tutorial

A hands-on tutorial on Arvest, an app for multimodal data work by Jacob Hart and Clarisse Bardiot. This is an open-source and free-to-use tool built around the IIIF. The participants are encouraged to bring their computers so that they can create an account and immediately start creating content. Arvest is developed by the ERC funded STAGE project. Link to the tool: https://arvest.app/en

6:30 – 7:00 PM wrap up
